D. A. R. WAR ACTIVITIES

TOLD IN REGENTS BOOK

Members of Faith Trumbull chapter, D. A. R., of Norwich are much interested in a book recently issued in which are related the war activities of the Connecticut Daughters. It was compiled by Mrs. John L. Buel, of Litchfield, the state regent, and covers the work done during the great World War from August 15, 1914 to November 11, 1918, with supplemental reports since the signing of the armistice, to and including June, 1919.

It is cited that in Red Cross work the Daughters of the American Revolution took the lead, though working so largely as individuals without keeping records that their chapters had no means of even estimating their production. Some chapters reported "thousands" and many of them said "impossible to estimate" or "no record kept."

Twenty-five D. A. R. chapters organized the Red Cross chapters, auxiliaries, or groups of workers in their respective towns, most of them after the breaking out of the war, and all over the state the Daughters were the Red Cross chairmen, officers, supervisors and heads of departments.

Thirty-one D. A. R. chapters had a 100 per cent. Red Cross membership and the whole state attained 83.14 per cent.

In food conservation the chapters co-operated with the food administration in all its activities.

The splendid work of the chapters in contributing \$5,465.24 to the N. S. D. A. R. \$160,000 Liberty Loan Fund put Connecticut far "over the top," our quota, assessed at \$1,000 a member on the 1918 membership having been only \$5,178. At the Continental Congress of 1918, the Connecticut delegation contributed during the rally for this fund, the sum of \$306,666.66. This fund, the sum of \$306, of which \$150 was contributed by the delegation as a whole in honor of the vice president general, Mrs. Minor, the state regent, Mrs. Buel and state vice regent, Mrs. Bissell.

Every chapter without exception contributed to this Liberty loan quota, thus making the state 100 per cent. as to chapters, and forty-five chapter out of the fifty were 100 per cent. in their chapter quotas, nine of these being far more than 100 per cent.

In the N. S. D. A. R. fund for the restoration of the French village of Tilloley, undertaken by the society as a whole, the Connecticut chapters also went over the top contributing \$5,020.24 when the state quota was only \$2,589 at 50c a member. Thirty-eight chapters went over the top with their quotas, and only five did not contribute at all.

Middletown.—The engagement of Miss Clara Ward, formerly a teacher in the city schools here, to Frederick Strasburg, Wesleyan, '15, has just been announced. Miss Ward has been teaching in New Britain during the past year. Mr. Strasburg is a professor in Rhode Island State college.

SETTLES LUMP SUM IN

WORKMEN'S COMPENSATION CLAIM

Commissioner J. J. Donahue has rendered his finding and award in the workmen's compensation claim of Fred G. King of Mystic against J. W. Lathrop & Co. of Mystic on the matter of agreement upon a certain sum to be paid in settlement of Mr. King's claim. The lump sum to be paid is \$375 which is compensation for two years at \$3.75 per week, commuted at four per cent. It is agreed that this sum does not include the weekly payments due from the date of the last payment, July 11, 1920, to the date of the filing of the finding.

Mr. King had his left leg broken between knee and ankle while in the employ of the Lathrop Co. at Mystic on July 2, 1917, and a voluntary agreement as to compensation has been in effect up to now under which compensation has been paid since July 14, 1917. The claimant is not yet walking but has been fitted with a special brace and in the opinion of the orthopedic surgeon who is attending him the claimant is now able to do light work as he is able to get around with a cane.

REPORT SLATER MILLS

SOLD TO NINGRET CO.

A special despatch from Jewett City to a Boston newspaper says that it is understood that the W. A. Slater mills on Sept. 1 will pass into the hands of the Ningsret company, makers of cord-tire fabric. The Ningsret company, a recently formed corporation, absorbed the Green & Daniels mills of Pawtucket and the Ningsret Mills company of Westerly. The Ningsret company will operate its three plants in conjunction exclusively in the production of cord-tire fabric. No immediate enlargement of the Slater mills is contemplated, but a rearrangement of the machinery will be made. The Slater plant will run to its full capacity, with probably a small increase in the number of employees.

Expert Gardener at Orange, Mass.

One of the finest looking gardens in town is that of Edward Baker of Burrell avenue. This is nothing unusual, for the well known Grand Army man has a faculty of growing things each year which arouse the envy of all garden enthusiasts. Mr. Baker not only has the energy, in spite of his rather advanced age, but he likewise possesses the "know how." He has always been a skillful agriculturist. Mr. and Mrs. Baker are entertaining a favorite niece this summer, Mrs. William B. L. Cranston, of Norwich, Conn.—Orange (Mass.) Journal.

Dr. Bunnell, Not Dr. Linnell.

Through an unfortunate confusion of names it was reported in The Bulletin Thursday morning that Dr. E. H. Linnell of this city was in a motor boat off Groton Long Point that had to be rescued from a precarious condition where it was in danger of being dashed on the rocks in a high wind and storm. It was not Dr. Linnell but Dr. F. B. Bunnell, a member of the faculty of the Academy, who is staying at Fishers Island with his family for the summer.

Coffee Is Harmful to Growing Children

and parents who permit its use sometimes have cause for regret.

With children in the family, and where the coffee flavor is liked,

Instant Postum

is generally accepted as the ideal table drink instead of coffee.

All grocers sell Postum, and its pleasing flavor, combined with its advantages of quick making and economy, soon make it a home favorite.
